

Faculty Development programme for Entrepreneurship development

ICECD, Bopal, Ahmedabad organized a 13 days faculty development programme from 19/02/2018 to 03/02/2018 for entrepreneurship development with the collaboration of National Science and Technology Entrepreneurship Development Board, Ministry of Science and Technology, New Delhi, to develop and consolidate human resources of different institutes through training of faculty for initiation, design and implementation of entrepreneurship courses in their respective institutions. It is the need of the time to inculcate the essence of entrepreneurship in students, who require specialized efforts to be motivated for entrepreneurship and for self-employment. Also needed to develop expertise among the faculty for imparting entrepreneurship training/ teaching effectively and create conducive environment in the institution for entrepreneurship development. For that five staff members along with fourteen Post Graduate & Doctorate scholars from different faculties of S.D. Agricultural University had participated in the same. The training programme was more participatory and practical than theoretical aspect. The formal training sessions included case studies, audio-visuals, field work and assignments, simulation exercises, lectures, discussions and counseling. Participants were a great opportunities to test their acquired skills. They were given appropriate scope to formulate their ideas to be implemented in their respective institutions. Training was provided them to developed conceptual understanding for enterprise creation & management within themselves and sensitized them in techniques of building institutional coordination among supporting agencies. They have developed skills for formulation of business plans & received training for developing entrepreneurial capabilities among students. The training programme was intended to help them to design awareness programme, workshop, seminars & training curriculum for students within institutions.
